

Suncoast Midwifery is a new practice providing maternity care on the Sunshine Coast, BC. We serve families along our coastline including Langdale, Gibsons, Roberts Creek, Sechelt, Halfmoon Bay and Pender Harbour. We are looking for a midwife to join our practice of two so that we can grow to meet the needs of the families here and build a vital midwifery presence on the Coast.

We are looking for a dynamic, collaborative midwife who is confident in her clinical and communication skills and who is able to commit to full time practice for a slow but growing caseload. Alongside two experienced midwives, she will have both call and clinical support as we work together as a team to expand our services deeper into this community. As a sister-clinic to Pomegranate Community Midwives in Vancouver, Suncoast Midwifery benefits from both admin and OSCAR support.

Currently, there are 10 family physicians and 2 OB's who provide maternity care in the community and at Sechelt Hospital. The maternity wing of the hospital is new and each SRMC room has a tub. Nursing support is solid. There has been interest in collaborative initiatives in the past and midwives have reliable on call support from family physicians when requested.

If you are interested in learning more about this opportunity, please contact either of us. We hope to fill this position as soon as possible.
